Too soon to tell. Dr. Peters had a very good manner about him and made me feel very comfortable. The fact that my insurance (Health Alliance) doesn't cover his services means it's a pretty good whack in the pocket book to have to pay out-of-pocket. If I get the results I'm after it'll be worth it.

My experience at the Central Illinois Natural Health Clinic was nothing short of spectacular. As a "self taught" health explorer, I had been dealing for a while with a tenacious health problem. Doctor Peters was composed, calm and knowledgable as he gave me a plan for success and hope in that they were all natural treatments. The atmosphere and whole process from the receptionist in the beginning treating me so kindly to the fantastic appointment, was a very enjoyable and beneficial experience.

★★★★★ by Cheryl Curry on 2016-09-09

Dr. Peter's is an excellent practitioner. He is very attentive and concern about helping to correct my disorders through a naturopathic route. In addition, through my chiropractic sessions, he focuses on working to relieve me from pain due to these medical issues . I would and have recommended him to other people interested in a natural path to healing. Also his receptionist, Kelly, works well with his clients in providing all the necessary administrative paperwork needed to go through the visits

effortlessly and smoothly. His practice was recommended to me and I'm glad that I follow through on the suggestion.

★★★★★ by Felicia Parrott on 2016-07-12

My experience at Central Illinois Natural Health Clinic was hopeful and aligned with my beliefs for natural healing. My only complaint was that I may have been overcharged for the supplements I purchased, as I have looked online and quickly found the same supplement for 1/2 the price with nearly every vendor. However, I was very happy with what was suggested for my specific needs.

★★★★★ by Jameson Greer on 2016-03-31

The atmosphere is calm, and I didn't have to wait long to see Dr. Peters. He took time to listen to me, and did not waste my time with fear mongering regarding my choice to not vaccinate my child, which was a relief. He was excellent with my 2 year old son, who is very loud and busy, but it didn't seem to annoy or bother him at all. He made several suggestions about how to naturally treat the symptoms my child was having, and gave us a plan for care specific to him. It was such a relief to be taken seriously. My past experiences with pediatricians in Danville have been very frustrating, to say the least.

I had been in excruciating pain for more than six months with absolutely no help from a local doctor who acted as if it were all in my head. Dr. Peters listened, asked a lot of questions and looked at all of my symptoms and medical history thoroughly before providing me with a diagnosis of Fibromyalgia. Today, I am nearly pain free. I am sleeping better than I have in years. I feel better and many of my symptoms have completely eased up making life tolerable again. I am so grateful for this clinic and for the expertise of Dr. Peters.

Dr. Peters offers an extremely valuable alternative to traditional health care in our area. I have seen him several times and have taken/referred family members as well. My first experience was with his homeopathy evaluation, done on my daughter who has MS. His recommended remedy had a very definite effect on her overall health and mental attitude. Dr. Peters helped me significantly with his NST and with his advice regarding supplements. My husband has his cholesterol totally under control now thanks to Dr. Peters as well. Go see him and find out what he can do for you!

I have cerebral palsy, and over half of doctors who I see for the first time seem to be nervous around me. However, Dr. Peters was not like that. In addition, he answered all of my questions besides asking me a few that made me think of a couple more important questions that I wanted to ask him. I see a little improvement in my overall health after taking what Dr. Peters prescribed after having one treatment. The only thing that could be better is the entrance. I have a little trouble getting into the clinic since I use a power wheelchair. However, I know that the building is at least 25 years old, so I understand why the building is not more accessible.

I highly recommend you try CINHC! My first experience was when my daughter was newly diagnosed with MS. Dr. Peters did a lengthy and thorough evaluation and then gave her a homeopathic remedy. It was not a cure and never claimed to be, but it did very noticeably help her body even out and improve in many areas. He also was able to help evaluate which dietary supplements were appropriate for her to take as support for her condition. I myself have had the NST treatment several times. It is wonderful and effective! My husband saw Dr. Peters for high cholesterol and takes high quality supplements from CINHC. His cholesterol has dropped to normal, healthy levels and has stayed that way for several years now. We just received his latest blood test results and they were fantastic. There are other ways as well that I and my family have benefited. Dr. Peters is friendly and encouraging. Give it a try! We are blessed to have such a practice in our little town of Danville!

I actually look forward to seeing Dr. Peters. His approach is professional and supportive. I have referred many of my friends and family to him.
